KC Pittsfield, LLC

Project No. 14512-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING
AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING
APPLICATIONS

On April 18, 2013, KC Pittsfield, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Old Cow Creek Open-Channel Hydro Project (Old Cow Creek Project or project) to be located on Old Cow Creek, near Whitmore, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a diversion intake on Old Cow Creek located just above Pacific Gas & Electric Company's (PG&E) existing diversion; (2) a new 100-cubic foot per second canal that would run parallel to PG&E's existing 3-mile-long canal; (3) a powerhouse located adjacent to the existing PG&E powerhouse; (4) two 3-megawatt conventional hydroelectric turbines; and (5) appurtenant facilities. The estimated average generating capacity of the project would be 31 gigawatt hours.
